

Teste de fluxo

O nível IDDSI depende do líquido restante após 10 segundos de fluxo.

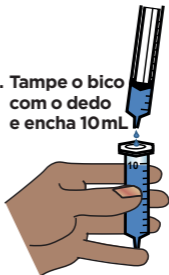

1. Remova
o êmbolo

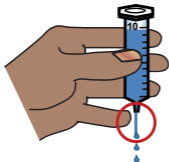

Coloque
o dedo
aqui

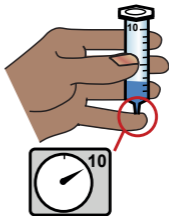

2. Tampe o bico
com o dedo
e encha 10mL

3. Destampe
o bico e inicie
o temporizador

4. Pare em
10 segundos

**Vire para verifique
o nível IDDSI**
